

FGD SCRUBBERS

- Project:** Marshall Steam Station – Terrell, North Carolina
Flu Gas Desulphurization (FGD) Scrubbers
- Owner:** Duke Energy
- Application:** Slurry line piping ranging in sizes from 2" to 14" DR 7 and 9
- Engineer:** Stone & Webster a Shaw Group Company
- Contractor:** Shaw Construction
- The Challenge:** Find abrasive resistant High Density Polyethylene fittings that are easy to install; possess a smooth interior finish and a gradual change in direction to minimize pressure losses.
- The Solution:** Arc™ High Density Polyethylene Sweep Bends manufactured without mitered joints by Pipestar International in various angles and sizes from 2" to 14"
